

An Introduction to Inspiring Future Teachers

Inspiring Future Teachers (IFT) has been created through a partnership of multi-academy trusts, Teaching School Hubs, Curriculum Hubs, Research Schools and existing SCITT providers with many years of experience in leading Initial Teacher Training in their local areas. We offer all the benefits of being part of a large national programme whilst at the same time providing locally delivered school-based training in either a primary or a secondary school.

This allows our trainees to learn in a school environment, as a member of school staff, from day one. This is supported and enhanced through a comprehensive and evidence-informed, centre-based training programme led by highly skilled teachers and professionals from your local area, who are passionate about education and providing the best possible life chances for the children in our schools.

HISP Teacher Training

HISP Teacher Training is your local Hub of Inspiring Future Teachers and is an alliance of highly successful schools in Hampshire, Isle of Wight, Southampton, Portsmouth, Gosport, Fareham and the New Forest. We have a very strong history of providing exceptional Initial Teacher Training since 2013, with high employment rates within our partnership schools.

Training and recruiting teachers through our programme allows our partnership of schools to "grow their own" and aims to offer successful candidates a long-term career pathway that goes well beyond Initial Teacher Training.

We offer a School Centred Initial Teacher Training (SCITT) route which results in Qualified Teacher Status (QTS) with the option of uplifting this to a Post Graduate Certificate in Education.

With us, you will be in school from day one with the chance to see how teachers work to establish their routines and practices from the very beginning. We firmly believe this approach gives trainees the very best start to their teaching career.

HISP Teacher Training

Course Fees: £9250 (PGCE with QTS route) £8750 (QTS route only)

Entry requirements: GCSE (C or above) in English, maths and (for Primary candidates) science, an honours degree or equivalent at 2:2 or above
