Together for a Brighter Future

Welcome to Year 6 Ocean Class **KS2**

Firstly, we would like to welcome back yourself and your child to Key Stage 2 and, their final year at primary school. We hope you all had a fantastic summer and we are looking forward to what will be an exciting year where we can focus fully on the enjoyment school brings within a classroom environment that we have designed to be flexible to the way the children work but also in a way that is conducive to a positive, productive atmosphere. This letter is just going over the basics of school and classroom life, as well as information on important days and times.

Staff - I (Mr Cook) will be the key teacher for year 6 and will be teaching the class Monday and Tuesday (all day) and Wednesday (half day). On the other half of Wednesday and Thursday and Friday (all day) the class will be taught by Mrs Armstrong. We will ensure that lessons are stimulating and enjoyable for the children to give them the best chance of positive motivated attainment. Teaching assistant support, in the class will be provided by Mrs Heimour.

Early morning routine – The children will come straight into the classroom at 8.25. From here, the children will organise their things, put their bags in the cloakroom and sit in whichever position they are learning in that day. Whilst doing this, there will be some tranquil music playing in the room and the children will settle down to their places and complete a literacy starter aligned with their confidence, this will either be a short reading comprehension or a grammar activity.

Fruit – Your child can bring a piece of fruit/snack for their morning break time.

Drinks – Each child will need to bring in a named water bottle to drink throughout the day. It can get very hot in the Key Stage 2 classes so a drink will always be available. Water bottles will be easily accessible in the class room and the children will be given lots of opportunities to have a drink throughout the day, however we will ask for them not to be on the class tables during lessons, but rather they be underneath them, to ensure that great work does not accidentally become spoiled.

Lunchboxes – These will be stored in their year 6 lunchbox trolley.

End of the day routine- The day ends for the children at 3.05pm. We will lead them out and independent leavers will be able to go without being collected by an adult, however those who are not will need to wait with us until their adult has collected them from the back gate.

Uniform – We ask that you regularly check that all clothing is clearly labelled, especially jumpers and coats, including P.E. kit, and that all children are provided with a hat in hot weather, and a coat when it is cold or wet. It's important to get the children out at playtime every day, even in light rain. For this reason, can the children also bring their wellies in as we have a welly store outside the classroom so they can still use our field areas in instances of wetter weather.

P.E. and Forest Schools – Our PE lessons will take place on Tuesday afternoon and Wednesday afternoon. To avoid unnecessary movement and to also ensure we have the maximum time possible for our PE lessons, we ask that children come to school in their PE kit on these days. Please could all children be provided with some jogging bottoms and a sports jumper so we can continue with P.E. outside when it becomes chilly! We only have a small amount of spare kit for anyone to use (if for any reason they forget to come in their kit). Forest Schools will be a little different this year and we will not be having our sessions until Spring 1, however, these will be longer and more in-depth than they have been in previous years. There is therefore no need to bring in forest school gear until then. We will update you on what is needed nearer the time.

Homework – Reading – We cannot stress how important it is for your child to be reading regularly. Fluent reading helps unlock the world we live in and is a hugely important life skill. This is why we have prioritised this for homework. At school, we have a fully stocked library with a range of books that cover a range of genres and text types for the children to take home to read. Whilst in the classroom, we will have a range of different Horrible Histories magazines and a collection of books that are unique to the class and children can enjoy during quiet reading time. Hopefully every child will be able to find books that appeal to their interests. We do not mind if the children prefer non-fiction books, fiction, magazines, newspapers etc, the key thing is that they are reading daily. We will also be setting short reading comprehensions based on their topic in class to further enhance their learning and reading skills, these will be designed to take no more than 20 minutes and will be set as weekly homework.

Spelling – Spellings this year will be tailored to whatever the priorities for the class are, whether this is a specific sound, prefix/suffix or common exception word. The children will be given the spelling list on a sheet which will include a range of suggestions for how they might best practice the spellings. The strategies suggested will appeal to a number of different spelling learning styles. These spellings will be given out weekly or bi-weekly depending on the amount of spellings and complexity of them. Spelling tests will occur on the Friday to check how well they have been practiced and learned by the children.

Maths – For maths homework, the children will be completing arithmetic practice using Maths Bot. At the beginning of the year, these will be themed around specific arithmetic focuses before moving on to the full array of arithmetic skills needed for year 6 by the Spring term. The children won't be expected to spend any more than 20 minutes on these and will be provided with tips on the back of the sheet for how to complete the different questions they face. They can also have squared paper to support with their working out if this is something that is required.

Topic – Children will be given a sheet at the start of the term which outlines a range of different projects that children can complete based off of our topic. Each project will involve a different skillset and will appeal to different learning styles. Children can complete as many of these as they want across a term and they will be rewarded for doing this as well as being given the chance to present what they have done. Across the term we will be expecting each child to have completed at least one of these projects. If for any reasons there are difficulties completing these projects at home, we can give the children extra time at lunch on these if it is needed.

Class Dojo – This is our completely electronic way of rewarding the children. As you probably know, one feature that is particularly useful is a message system (which can be accessed via computer or app). This feature allows there to be a better working relationship between ourselves and all of the parents in the class. We will be able to send class or individual messages out to inform you of particularly positive behaviour or work during the week, you will also be able to also message us if you have anything you would like to talk about or query. Other great elements of this system include the ability to view your child's points total and to monitor what their points have been awarded for e.g. good work ethic. We will also post photos and videos onto Class Dojo so you can see the work your child is completing in school. We will be posting these regularly so make sure you check the app often. Your child will also be able to use their log in to edit their own avatar so they can see it in class and so it is completely individual to them.

Thank you for your time in reading this letter. Please remember, if you have ANY concerns or worries about your child throughout the year DO NOT hesitate in coming to see us after school. If there is any way that we can support your child and family then we will. We would much rather know about a problem and take steps to solve it before it becomes a bigger problem! We also try our best to respond quickly to any messages we receive on the Class Dojo so don't hesitate to message us either. We are thoroughly looking forward to working with you and your child throughout this exciting school year.

Kind regards,

Mr Cook and Mrs Armstrong
